ABOUT ME

I'm a computer engineering student at GEC-Rajkot currently building my skills in programming and web development. So far I've worked with languages like C, Python, and Java, and I've created several practice projects using HTML, CSS, and JavaScript. I'm really enjoying learning how databases work through MySQL. While I'm still new to professional development, I'm excited to keep improving - right now I'm focusing on getting better at building responsive websites and writing cleaner code. I'm looking for opportunities where I can learn from experienced developers while contributing my fresh perspective and problem-solving skills.

EDUCATION

GOVT. ENGINEERING COLLEGE - RAJKOT

Computer Engineering • CGPA - 8.22 (sem 6)

2022 - Present

SHREE K. G. DHOLAKIYA SCHOOL - RAJKOT

Higher Secondary - 12th Science • Percentage - 70.76%

2020 - 2022

SKILL

- | | | | |
|---------|--------|----------|-------------------|
| • C | • HTML | • CSS | • DSA |
| • MySQL | • JAVA | • Python | • Problem solving |

PROJECT

Personal Portfolio

· HTML · CSS · JAVASCRIPT

My debut project—a clean, responsive portfolio crafted from scratch. I focused on mastering fundamentals: semantic HTML, CSS flexbox, and Bootstrap grids. The simple JavaScript interactions (like the enlargeable profile photo) were hard-won victories that boosted my coding confidence.

MovieMagic : movie recommendations website

· HTML · CSS · JAVASCRIPT

Working on a college group project to build a movie recommendation website. We're using Python to analyze user preferences and suggest films based on genres and ratings. Right now, I'm helping design the interface with HTML/CSS while learning how to connect the backend algorithms. It's challenging but fun to see our ideas slowly coming together!

EXPERIENCE

Web Development Internship

• CreArt Solutions - Ahmedabad

July 2025

Completed a 15-day summer internship focused on web designing under the guidance of the Project Manager, Mr. Alkesh Kaba. Gained hands-on experience in front-end design practices and contributed to real-time project tasks. Demonstrated strong participation, timely task completion, and a professional attitude throughout the internship.

HOBBIES AND OTHER DETAILS

- Hobbies: Watching Movies and play cricket
- Languages: Gujarati, Hindi, English
